

My name is Matt Sorak and I have been a CRNA for 13 years. I currently practice at Woodland Anesthesia Associates, working at various ASCs and Saint Francis Hospital. I graduated from the St. Raphael's School of Nurse Anesthesia in 2011 and recently earned DNAP through the Yale New Haven Hospital School of Nurse Anesthesia and Central Connecticut State University. During the DNAP program, I was introduced to health policy and advocacy. After attending a recent legislative advocacy event at the Capital hosted by CTANA, I decided to seek a position on the CTANA Board of Directors. I'm looking forward to help advance our profession within our state.
